## Projects

---

2024

### **VerseWise** [↗](#)

*AI ChatBot*

- Helped in building A RAG based Spritual ChatBot on A Hackthon organized by Great Comission Ministry Ethiopia HackAddis2024
- Majorly Involved in the UI/UX Design [↗](#)

2024

### **My Recipie** [↗](#)

*Recipe Finding Web App*

#### **A personal Project built by React and Spoonacular API**

- Learned the basics concepts of react
- Understood how API Fetching and managing work while using Postman
- Github [↗](#)

2023

### **Dictionary** [↗](#)

*GUI based project, Java*

- Project for Semster end, built a Graphical user interface based dictionary that comprises an SQL data base

2023

### **Microprocessor Simulation** [↗](#)

*Comptuer Architecture Project*

- Built a 16-bit microprocessor that performs 8 tasks majorly using proteus
- Learned how a computer processes things
- Understood How simulations work
